COLOURS & FINISHES

Natural Oils:

A natural oil finish enhances the natural grain and texture of the wood whilst offering protection against moisture.

Limed:

A limed finish involves working a pale pigment into the grain of the wood. This highlights the texture while lightening the overall appearance.

Painted:

A durable uniform finish in a colour of your choice to blend harmoniously into your own interior décor.

PERSONALISATION

BASINS & SURFACES

Basins:

Unlike many vanity units where basin depth makes the top drawer unusable, our design ensures fully functional top drawers for added storage and improved usability. This is achieved through our carefully selected shallower basins, available in a contemporary rectangular or traditional oval style. Both options are supplied at no extra cost and integrate seamlessly with your chosen vanity design.

Vanity Surfaces:

Pick from our premium range of materials and we'll dispatch samples directly to you, helping you make an informed decision. If you have something else in mind, feel free to use our search and selection process — we offer many options from the UK and abroad, ideal for matching existing architectural features in your home.
